

October 1, 2020

Greetings All

Just a couple of reminders to help you prepare for Building Blocks on a weekly basis.

Team Meetings: Please discuss Building Blocks at your team meetings so that all staff will be on the same page and know what activities to do. Remember BB is done every day, even if you are out. That is why it is so important to share the information.

Curriculum Books: Following the book (Teacher's Edition) will make this very straight-forward for Teachers and Assistant teachers. Building Blocks repeats itself in upcoming weeks, so keep on moving forward. It is important that we follow and stay on the same schedule, as the trainings that Danielle Kilcullin will be giving will be based on the common schedule.

Whole Groups: It is important that whole group activities are done on a daily basis. For those new classes, as you see the whole group activities don't take much time and the children love them.

Computer Component: Some of the classrooms have the Building Blocks program installed on their desktops and some use the tablets. Make sure all children have the opportunity to engage in the weekly game.

Small Groups: It is important that all children get a turn with the small group activity weekly. When using the small group activity please remember to use the small group record sheet to document how the child is doing. (you can get so much information from these activities and use the information for your anecdotes.)

Lesson Plans: Please make sure that Building Blocks is in your lesson plans weekly.

Please be prepared with materials, as it is hard for children to have to wait for us.

Have a great week.

The Education Team
